Product Overview

Product Name: 10.4-inch Capacitive Touch Screen

Size: 10.4 inch

Touch points: 10

Structure: Glass + Glass

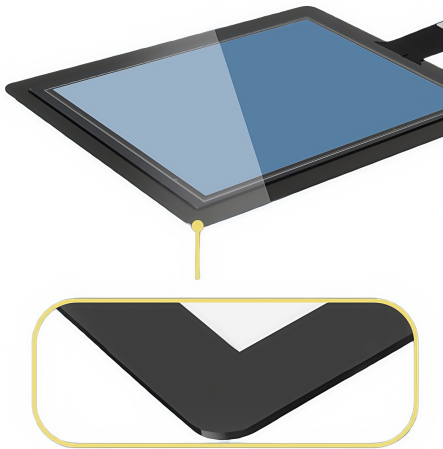

Touch interface: USB, plug-and-play

Product certifications: CE, FCC, RoHS

Compatible operating systems: Windows, Android, Linux, Mac

Product Features

Full plane design: simple and beautiful, high durability, suitable for industrial, outdoor and other harsh environments.

Protection performance: waterproof, dustproof, explosion-resistant, able to operate stably in harsh environment.

Surface treatment: anti-scratch, anti-oil, easy to clean and maintain.

Standard USB interface: plug and play, free drive compatible, convenient and efficient.

Ten-finger touch: Support ten-point touch to meet the needs of multi-task and complex gesture operation.

Diversified touch: compatible with finger, touch pen and other operation methods, adapt to different environmental needs.

High sensitivity: advanced touch technology, accurate identification of input, rapid response, smooth operation.

Wide compatibility: Supports a variety of operating systems, including Windows 7, Windows 8, Windows10, Android, Linux, Mac, Windows xp.

Seamless connection: No complex setup to ensure fast access and stable operation of the device.

Cross-platform adaptation: suitable for education, commerce, industry and other scenarios, compatible with all kinds of hardware

devices.
